## PROFESSIONAL EXPERIENCE

### Web & WordPress Developer

INVID | April 2020 - present

Design, code, test and analyze software programs and web applications utilizing tools like HTML, CSS, JavaScript, TypeScript, Angular. This includes researching, designing, documenting, and modifying software specifications throughout the production lifecycle. Also analyze and amend software errors while providing status reports when required. Furthermore, provide support with developing custom, often complex, WordPress-based solutions.

### Freelance Services

Self-Employed | 2017 - present

Providing services of **video editing, web development, graphic design, videography and photography**. Using technologies like HTML5, CSS, JavaScript, PHP, WordPress, jQuery and applications like Vegas Pro, After Effects, Premier Pro, Photoshop and Illustrator. **Some recurring clients include Gallaudet University, Happy Mushroom, PRCDC.**

### Web Developer
